27 November 2002

Dear Dr Hamada

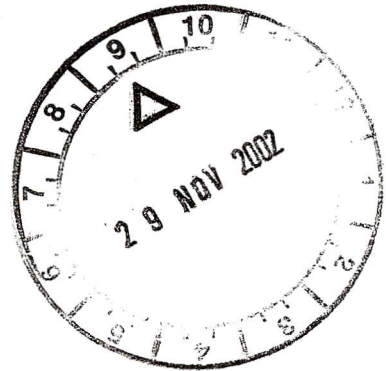

I am very pleased to invite you to visit the Oxford Centre for Industrial and Applied Mathematics from 25th January 2003 to 5th February 2003. We can provide you with a desk and the usual computing and library facilities during your stay.

We will be able to pay all your local expenses during your stay.

I look forward to meeting you.

Yours sincerely

Dr H Ockendon
Director
Oxford Centre for Industrial and Applied Mathematics

4 December 2002

Dear Dr Hamada

I am writing to confirm that the Mathematical Institute will be pleased to welcome you as a visitor to Oxford for the period 25 January to 5 February 2003.

The Institute acts as a centre for the organisation of mathematics teaching and research throughout the University. It houses the Whitehead Library which is the main mathematical research library, and is a short walk from the Radcliffe Science Library and the Bodleian. You are welcome to use our computing facilities which include Email, Tex for document preparation, and several mathematical packages. We are able, also, to offer you common room facilities and shared office accommodation. If you require assistance with living accommodation or obtaining a college association you should contact your sponsor in Oxford. During the term time we have a full programme of lectures and seminars which, of course, you are entitled to attend.

It would be helpful, if, in due course, you could let our Administrative Assistant, Val Timms, have details of your anticipated arrival date.

Your sincerely

Dr N M J Woodhouse
Chairman of Mathematics
